Trenumi

MINI BRAND GUIDE • OCTOBER 2026

01 / Logo system

Primary lockup, symbol and reverse application.

Primary dark logo

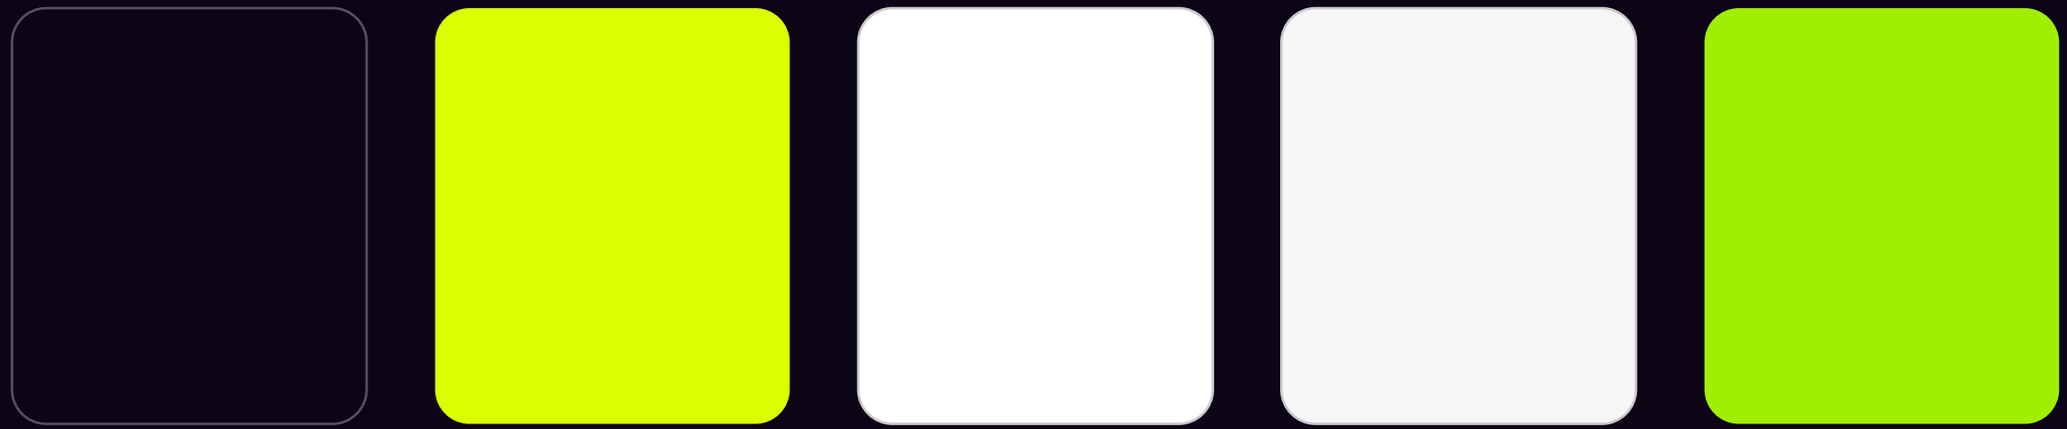

Standalone symbol

Protect clear space around the icon (min. 1/3 of its height).

Use the standalone mark in app icons and small UI contexts.

02 / Color palette

Precisely defined digital colors. Primary accent: #D9FF00.

Deep ink

#0B0515

Electric lime

#D9FF00

White

#FFFFFF

Soft white

#F6F6F7

Lime alternative

#A1EF00

Use electric lime for primary actions, progress highlights and emphasis.

Keep long-form text white / dark ink. Do not use lime for dense body text.

03 / Mobile assets

Exact exports for iOS and Android launch materials.

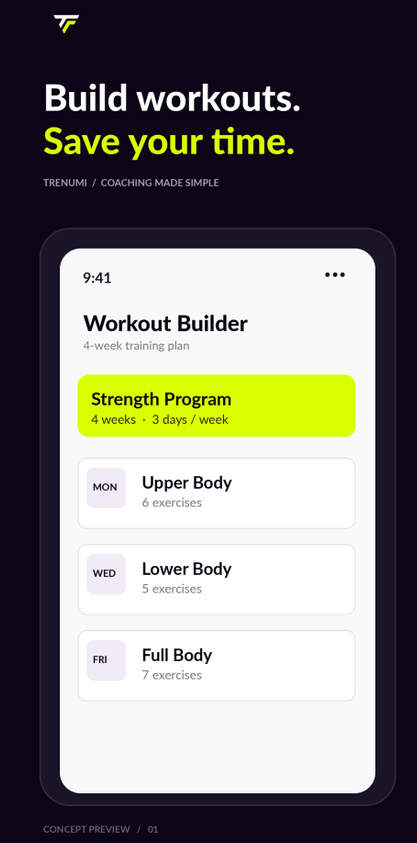

App icon

1024 × 1024 • opaque

Splash screen

Store preview (concept)

Do not bake rounded corners into the iOS icon. Android uses adaptive layers.

04 / Type and voice

A direct, modern voice for coaches and clients.

Trenumi

Inter Display ExtraBold / Wordmark approximation

Build faster. Coach better.

Short, confident, useful. Focus on real training workflows.

Type recommendation: Inter (UI, headings, forms, numbers).

Always support Ukrainian (uk-UA) and English (en).

05 / Handoff notes

Working brand assets for app design and development.

- iOS: app_icon_ios_1024.png — square, RGB, no alpha, no rounded crop.
- Android: 432px foreground PNG + flat adaptive background color.
- Splash: full-bleed 1170 × 2532 and 1290 × 2796; universal 2048px image.
- Figma: import editable SVG marks and logo compositions.
- App Store preview concepts are illustrative, NOT actual screenshots.
- Replace concept previews with real app screens before store submission.
- Do a trademark and logo-similarity review before commercial launch.
